- **Service Design:** Journey Mapping, Service Blueprinting, Ecosystem Mapping
- **Data:** A/B Testing, Product Analytics, Funnel Analysis, SQL
- **Collaboration:** Cross-Functional Teams, Agile/Scrum, PRDs, Problem Framing

PROFESSIONAL EXPERIENCE

UX Designer (Freelance) | F16s | Jul 2026 – Present

- Designed a B2B tool for freight companies to document, track and manage shipments, replacing manual, fragmented workflows.
- Mapped operations teams' workflows through user research and turned findings into user flows, information architecture and task-focused dashboards.
- Designed AI-driven workflows that automate repetitive documentation and tracking tasks, reducing manual effort and wasted time for operations teams.
- Built wireframes and high-fidelity prototypes in Figma; A/B testing key flows before rollout (in progress).

Connect and Heal (Healthtech) | Bangalore | 2022 – Present

Associate Product Manager (UX & Product) | 2024 – Present

- **AI support bot:** Designed conversational flows and decision logic; cut L1 tickets 35% and raised First Contact Resolution 20% in 3 months.
- **Pharmacy (with Tata 1mg):** Redesigned the catalog with condition-based browsing; drop-off down 30%, order value up 41%, cancellations down 10%.
- **Pet care:** Launched a new user segment after a longitudinal user study; fastest activation of any service.
- **Self-booked appointments:** Cut operations effort 24% and opened a new paying user segment.
- **Gmail integration:** Auto-organized users' health records, cutting record search time 32%.
- **Invoicing:** Unified GST-compliant billing across services, removing manual steps for users, insurers and internal teams.

UX Researcher | 2022 – 2024

- **Prescribed orders:** Found drop-offs in Amplitude and validated causes through interviews; drop-off down 20%, order creation time down 65%, adjudication time down 80%, acquisition up 15%.
- **Diagnostics:** Iterative A/B tests on low-effort fixes raised order completions 20%.
- **EHR:** Interviewed doctors on their workflows; shipped an EHR in 2 months (SNOMED CT, ICD-10), cutting time-to-market 20%.
- **Health records:** Led persona research; upload time down 70%, activation up 15%.
- **Heuristic evaluation:** Audited core journeys and drove a redesign of key service flows.
